Micro Strobe

Mark 3600

Super Burst Strobe

STROBES

50S-2

The Diversitronics 50S-2 Super Strobe features a long-life pulsed xenon flash tube and has a power rating of 50W seconds. It is fan cooled and covers an area up to 60' x 90'. A remote is required to control the head. The RC-50 controls one head while the PS4M-50 controls up to 4 strobes.

MICRO STROBE BOX

The ST-MICRO1 is small but packs a punch. Miniature strobe with 20W xenon lamp and variable speed control from 1 to 10 flashes per second. Includes mounting bracket.

SR-DMX STROBE RUNNER

The SR-DMX Strobe Runner can handle 2-126 strobes. Controls feature intensity, speed, and Audio Gain sliders. The Strobe Runner has 7 programs that can be bumped or locked from front panel pushbuttons or an external switch through a jack at the rear of the unit. Also features 11 effects, such as Hyperflash, Lightning, and Emergency Vehicle.

SUPER BURST DMX STROBE

The ST-STROBE750D Strobe 750 produces 750W bursts of xenon flashes. Using DMX control allows the varying of intensity and rate of flash speed. DMX input via 3-pin XLR connection. Mounting bracket included. Power: 120v-50/60hz.

STROBE EGG

The ST-EGG is a powerful and compact strobe ball which can be screwed into any standard medium screw base lamp socket. Variable strobe adjustment knob for flash speed and a lamp rating of over 5 million flashes. Sold with a clear dome. Optional colored replacement domes available in red, blue, green, and yellow.

FLASHDOME STROBE

The ST-FLASHDOME1 strobe provides powerful flashes from a stylish molded housing. Includes mounting bracket and strobe flash variable pot adjustable from 2 to 14 flashes per second.

FLASHER DMX 1.5

The ST-FLASHER 1 is a professional strobe light with a 1500W xenon lamp and exceptional luminous power. Operates on a continuous duty cycle without thermalling out. Flash rate: 0 to 50 fps (continuous light). Dimmer adjustable from 0-100%. Uses just 2 DMX channels and can be controlled by any DMX controller.

MARK 3600 STROBE

This new, easy to operate 3600 watt strobe is UL-Listed with 9 different flash modes. Features include: Adjustable Beam for Wide to Narrow Projection, DMX and Analog (0-10VDC) inputs, and is external show control capable.

FM-10

ROSCO ALPHA 900

The Alpha 900 is the economical solution to simulating fog effects. It works exclusively from remote control and has an on-board well that accommodates a one-liter bottle of fluid (not included).

ROSCO MODEL 1700

The Rosco Model 1700 has state-of-the-art technology applied to give long-life reliability and high performance. The machine delivers fog output equal to or more than previous fog machines; but in keeping with modern practice, draws low power—1190W. The Rosco model 1700 accepts either the 4L or 2.5L Rosco Fog Fluid bottle, which makes it accessible to the entire range of Rosco fluids.

ROSCO MODEL 1900

The Rosco Model 1900 is a very high output professional fog machine at an affordable price. Features volume control to allow output control as well as on/off timers for automatic sequencing. Accepts 4L bottles of Rosco's entire range of fluids. Includes remote control with a 5 meter cable. DMX remote control optional.

ROSCO DELTA 3000

Using precision designed components coupled with a new electronics design known as Delta Technology,™ Rosco's Delta 3000 Fog Machine provides the tools to make fog and smoke a more versatile and creative component for any performance, film or video presentation.

ROSCO DELTA 6000

The Delta 6000 produces more fog volume than almost any other system. Using a dual-path heat exchanger, this unit consumes more than nine liters of fog per hour. Useful for large stages, theme parks, and industry applications. Available in 1500 Watt, 120 volt or 2300 Watt, 240 volt.

Please note: The Delta 3000 and 6000 require a remote control for operation which must be purchased separately. A remote control does not come with the unit.

TECHNI-LUX FM-9 WITH REMOTE

The Techni-Lux FM-9 is a super high output fog machine capable of producing 10,000 cubic feet of thick fog per minute, saturating any venue quickly. Easy carrying handle and 30 foot remote with timer/interval function. Holds 1.5 L of water-based fog fluid. 120v.

TECHNI-LUX FM-10 WITH LCD REMOTE

The Techni-Lux FM-10 is the latest Techni-lux professional fog machine. Output of 20,000 cubic feet per minute. Contains a 6L removable fluid container for water-based fluids and two handles. The digital LCD remote control allows duration, interval, and variable output adjustments. Also controllable with DMX512.

Radiance

Show Fogger Pro

Stage Fogger DMX

G3000 Fog Effects Generator

Peasouper

ULTRATEC RADIANCE HAZER

Ultratec's new Radiance Haze Machine is the next major advancement in water based haze technology. Built-in DMX controls the haze output and the internal fan, providing excellent haze control and even dispersion. The Radiance can be operated by an optional remote or by utilizing the onboard variable settings. Includes an IDC removable power cable and a multi-use bracket. Uses the Neutron Haze Fluid, which offers low consumption and great hang time.

ULTRATEC SHOW FOGGER PRO

Replaces the G100. The Show Fogger Pro has 30-40% more continuous fog output than it's G100 predecessor. It incorporates a large heating block, a strong whisper-quiet pump and Rapid Change Technology. The machine has a large one-gallon integrated fluid tank that prevents leaks and drips, a hammer-tone finish that resists scratches and wear, a built-in handle and built-in 4" hose adapter. Remote control with 25' cable included.

ULTRATEC STAGE FOGGER DMX

Replaces the G150. The Stage Fogger DMX has 30-40% more continuous fog output than its G150 predecessor from a custom

modified heat exchanger. A simple but extremely effective fog machine incorporating a large heating block, a strong, very quiet pump and Rapid Change Technology. The machine has DMX On-Board, an attractive durable finish, and a leak proof tank. Remote Control with 25' cable included.

ULTRATEC G3000 FOG EFFECTS GENERATOR

The G3000 is the ultimate fog machine featuring RDM equipped technology, DMX control, 2000w Dual Core Rapid Change Block, LSG compatibility, low fluid detection, continuous thermal control and a full functional backlit digital remote. Stainless steel body holds a one-gallon jug making it an ideal solution for continuous use in many different applications or environments. Uses all of Ultratec's Fog Fluids.

ULTRATEC PEASOUPER

Compact dry-ice fog machine with flow rate control that is more powerful than machines twice its size while being simple to use. An optional 4" hose adapter is available.

PART #	DESCRIPTION	PRICE
81-02287	Ultratec Radiance Haze Machine	1,285.00

81-02260	Ultratec 4" Hose Adapter CLF 1850P for Pea Souper	72.00

ULTRATEC DIRECTOR'S CHOICE FOG FLUID

Produces a clean, white, practically odorless fog with a medium hang time.

ULTRATEC PRO BEAM LONG LASTING FOG FLUID

Produces fog that is a little less white than regular fluid, with a hang time 2 to 3 times as long.

ULTRATEC MOLECULAR FOG FLUID

Originally designed for use with the LSX, but works well for other purposes. Dissipates as it begins to warm. Lingers about twice as long as Quick-Dissipating Fog Fluid.

ULTRATEC QUICK DISSIPATING FOG FLUID

Designed to disperse more quickly than regular fog. Works well with LSX if chilled fog is required to dissipate before it rises.

ULTRATEC MAXI FOG FLUID

Developed for high-volume users requiring an excellent balance of price and performance without compromise.

ULTRATEC HAZE FLUID

This fluid is designed to be used with the H175 or G300 to create a haze effect. Haze is commonly used to enhance lighting and scenic designs.

PART #	DESCRIPTION	PRICE

Ring Master

DEVICES TO MAKE A TELEPHONE RING ONSTAGE

Powered by a 9V battery or included AC adapter, the Ring Master will ring a phone from hundreds of feet away using standard telephone cable. A technician holds the button down continuously until after the phone is answered. Length of ring and interval between rings can be pre-set to provide a consistent ring pattern from one show to the next, or can be manually timed by the operator.

PART #	DESCRIPTION	PRICE
81-30005	The Ring Master With Adjustable Ring Pattern (includes AC adapter)	110.00

Mirror Ball

MIRROR BALLS

Produce dancing patterns of light when under a pinspot. Available in diameters from 8" to 20". Pin spots (rainlights) create narrow shafts of light. Good for effects when used with fog. Also used to shine on mirror balls. Includes lamp, transformer and plug.

PART #	DESCRIPTION	PRICE
81-30020	Light Duty Mirror Ball Motor for 8"- 12" Mirror Balls (Motor Only)	12.29

FLICKER CANDLES

Designed as a safe alternative to real flame candles, flicker candles are the most realistic non-flame candles you and your audience have ever seen. They look and act just like real candles. They are virtually indistinguishable from real candles, right down to the dripping wax on shaft of the unit. The flicker candles are powered by either a 9v battery or an AC adapter.

PART #	DESCRIPTION	PRICE

Beeswax with drip

White with Smooth Finish

ENJOY LIGHTING CANDLES

Enjoy Lighting Candles look exactly like real, burning candles in every way. But since the “flame” is powered by an electric bulb, they are completely safe, windproof, meltproof, fireproof, and waterproof. The candles are made of an extremely durable resin.

The electric bulb consists of several smaller bulbs in an array. A special computer chip dims and brightens each of them in a non-repeating pattern producing a rolling, flickering, three-dimensional glow that casts dancing shadows that mimic a real flame.

PART #	DESCRIPTION	PRICE
